Custom Seating at Epping

Located at the Aurora Community Centre in Epping, VIC - this custom Seat was manufactured by Furphy Foundry (us) based on our clients brilliant design.

This Seat has been installed at the entrance of the Community Centre and will serve as a practical solution while also maintaining the architectural integrity of the facility.

The materials selected to convert this design into a functional product alongside the workmanship of the finish means this will be a seat to stand the test of time.

Creating customised urban design products is a speciality of Furphy Foundry.

We've worked with hundreds of clients to help turn their ideas, concepts and designs into well manufactured products - made specifically for public use.
